

GUTcert and AFNOR

A companies presentation

GUTcert History

- ▶ Founded in 1986 as a company for engineering and technical consulting.
- ▶ During the German reunion we developed a sector for environmental consulting.
- ▶ 1995 we became one of the first environmental verifiers for EMAS in Europe, verifying 18 environmental statements of the 70 sites in Europe within this year.
- ▶ 1997 GUT Certification for management systems was founded as a verification and certification body. Followed from years of steady growing and continuously developing new fields of activity. The number of foreign customers increased too. Therefore it was consequent to look for a strong business partner which allows us to follow our customers abroad.

GUTcert and AFNOR

- ▶ With the AFNOR Group (Association Francaise de Normalisation), which we joined in 2008 , GUTcert has found this partner for rapid growing and more internationalisation.
- ▶ AFNOR is the French Standardisation Organisation, equal to the German DIN Institute. Since the early nineties AFNOR owns with AFAQ a subsidiary company for the certification of management systems of all kind, which overtook 51 % share of GUTcert. Now we are able to provide the complete range of corporate services „out of one hand“.

The AFNOR Group: Present worldwide

Algeria
 Bulgaria
 Canada

afnor
GROUPE

Traditionally french market

Today present worldwide and steady internationalising

Comes from quality management

Provides all common certification systems

GUTcert Philosophy

- ▶ We are service provider out of passion. The requirements and prospects of our customers are always in the centre of our work.
- ▶ We see ourselves not only as certifier but also as long term partner of our customers.
- ▶ We supervise our customers during all sates of the certifying process individually, personally and competent. We support all requests quick, friendly and efficient.
- ▶ Our long experience in certifying management systems, the competence of our auditors and the customer focus of our employees are national and international acknowledged and appreciated.

We verify and certify

- ▶ Our core business since 1997 is the certification of management systems according to the worldwide accepted standards from the International Standard Organisation (ISO).
 - ▶ Quality management systems according to ISO 9001
 - ▶ Environmental management systems according to ISO 14001
 - ▶ **Legal Compliance Audits and Due Diligence**
 - ▶ Health and Safety management systems according to BS OHSAS 18001
 - ▶ Educational institutions according to AZWV for the „Bundesagentur für Arbeit“
 - ▶ **Waste Management Facilities** (German „Efb“ scope)
 - ▶ **Energy management systems (EnMS)** according to DIN EN 16001:2008

We validate and verify

▶ We validate:

- ▶ Environmental statements according to the European EMAS-Standard for all branches

▶ We verify:

- ▶ Emission reports and Allotment applications in the European Emission trading scheme
- ▶ Annual reports for waste balance according to ElektroG (W3E)
- ▶ Electricity proof of origin and „Boni“ according to EEG
- ▶ Monitoring concepts and CO2-Data management systems
- ▶ Product Carbon Footprints according to accepted standards
- ▶ CSR- / Sustainablecheck according to accepted standards
